22nd Annual Congress of the
ESP^U2011

WORD OF WELCOME

Dear ESPU colleagues,

It is a pleasure to welcome you to Copenhagen. Our University and the National Hospital have shown great interest and enthusiasm for this European Congress. Originally it was to be the first joint meeting with the European Paediatric Surgeons Association but unfortunately this project did not materialize. However, our programme is very busy and stimulating. I am convinced we will have four interesting days in the brand new Tivoli Congress Centre, which opened only 6 months ago. I am happy the very brave ESPU Board arranged the meeting in a building, which was incomplete at the time of booking the congress. The Tivoli is the most modern technically equipped congress centre in Northern Europe.

The Lord Mayor of Copenhagen has kindly invited us to a welcome reception on Wednesday evening, in the City Hall, which is close to our main building. Other social events are in the programme. The congress has been organised by the ESPU Board, The ESPU office (Nur Ölçer and Christel Teuwen) and your local host. I really hope you will enjoy the meeting, which contains an excellent scientific programme.

Copenhagen can be very beautiful in the spring of late April.

A warm welcome to Copenhagen

Prof. Jorgen Thorup
Chair of the Congress

Transfers

Airport location - Copenhagen

Copenhagen International Airport Kastrup is located 8 km south of the city center on the island of Amager. You can get from the airport to the city by taxi - train - metro or bus. Copenhagen Airport is Scandinavia's largest airport.

Taxi - Copenhagen Airport

A taxi fare from the airport to the city center costs around DKK 200,00. Tips and service charges are included in price. The ride with taxi takes around 15-20 min. - depending on local traffic conditions.

Train - Copenhagen Airport

The train ride from the airport to Copenhagen Central Station (Hovedbanegården) takes about 10-15 minutes. Before getting on the train, you need to purchase a ticket at the ticket stand (DSB) located in the airport terminal. The ticket costs around DKK 25,00. Runs every 10 min.

Metro - Copenhagen Airport

Metro line is available and a ride from the airport's Terminal 3 to the City center (Kongens Nytorv) will take approximately 14 min.

Bus - Copenhagen Airport

Bus number 250S runs from the airport to the city center. A ticket costs around DKK 25,00 (for 3 zones) and can be purchased on the bus. Travel time by bus takes around 20-30 min.

Shuttle - Copenhagen Airport

There is no public Shuttle Service between CPH-Airport and City Centre - some hotels in Copenhagen offer private Shuttle service to and from the Airport.

Cancellation Policy

For the cancellation of the registration, accommodation and exhibition area bookings until the date of February 22, 2011 only 50% of the received payment will be refund to the participant. Cancellations received after February 22, 2011 will not be entitled to any refunding. All refunds will be processed after the meeting.

Climate

The weather in Copenhagen in April is usually sunny but sometimes partly cloudy and the temperatures are around 15° Celsius.

Currency

Danish currency is Danish Kroner (DKK). One krone is divided into 100 øre. Banks are open from 09:30 to 16:00 on weekdays with late hours until 18:00 on Thursdays (closed Saturdays and Sundays).

Electricity

Denmark, like most other European countries, has 220-volt AC, 50Hz current and uses two-pin continental plugs. Visitors from the UK will need an adapter for electric appliances, whereas North Americans need a transformer in order to use their 110/125V appliances.

Identification Badge

All participants, companions and exhibitors will be given identification badges. Participants who do not put on their identification badges will not be able to participate in the meeting activities. You need to renew identification badge from the information desk in case of losing out.

Value Attributed Tax

The current Value Added Tax (VAT) rate is 25 per cent. VAT is included in hotel and restaurant bills, entrance fees, etc. and cannot be refunded on these services.

PRESENTATION GUIDELINES

SPEAKER READY ROOM

The Speaker Ready Room is *Columbine* Hall and located at Ground floor.

Opening Hours

Wednesday, April 27	10.00 – 18.00 hrs
Thursday, April 28	07.00 – 18.00 hrs
Friday, April 29	07.00 – 18.00 hrs
Saturday, April 30	08.00 – 13.00 hrs

The quality of the meeting is extremely dependent on how you present your work.

The ESPU Scientific Committee would like to remind you of a few key points:

LONG ORAL PRESENTATION

- ✓ Keep your introduction short
- ✓ Do not exceed the time limits: 5 minutes for your presentation and 3 minutes for the discussion.
When you exceed this time limit you will be interrupted and asked to finish
- ✓ Please note that only PowerPoint presentations are possible (there will be no slide projectors available)
- ✓ Do not use too many slides (max. 10 slides = 2 slides per minute)!
- ✓ Hand in your presentation at least 2 hours prior to the session at the Speakers' Service Centre
- ✓ Familiarize yourself with the available equipment before your presentation starts!

As in the previous years we will be very strict with the time of presentations (5 min for oral). Since we consider time for discussion as essential, you will be asked to conclude when your time is out.

Abstracts will be presented in groups of 4-7, and then the discussion takes place with all the presenters at the podium.

Equipment supplied

- ✓ Computer with PowerPoint for computerized slide presentation; **no more than 10 slides are allowed**
- ✓ Laser pointer, Cordless tie microphone
- ✓ There will be **no** ordinary slide projectors just computerized slide presentation!!

Instructions

Date, time and place are listed on the Scientific Program. Please be present in the room 15 minutes prior to the start of the session. An abstract presenting author must attend the whole session in which he/she is scheduled.

- ✓ PowerPoint versions accepted are from 2000 to 2010
- ✓ Hand in your PowerPoint presentation on CD-ROM or compact USB-Drive (USB-Stick) 1.0/2.0 at least 2 hours prior to the start of the session at the Speakers' Service Centre a technician will incorporate your presentation on the computer network that is used for the PowerPoint presentations in the different meeting rooms. A technician in the lecture room will start your presentation.

- ✓ Your presentation can be loaded on to the network without problems when it does not exceed 15 MB: larger files can cause problems!
- ✓ Accepted Fonts are the standard Windows fonts. If you use a non-standard (e.g. scientific symbols) font with your presentation, you should supply this non-standard font separately with your presentation. For a normal projection, the font size 24 is sufficient.
- ✓ Use computer resolution of 1920x1080 pixels (HD 1080i) if possible.
- ✓ Format your presentation in 16:9 ratio – adjust the ‘Page Setup’ menu – in PowerPoint 2007/2010, select the 16:9 slide pre-set, or in PowerPoint 2003 or earlier, enter a custom size of 27.9 cm by 15.7 cm
- ✓ Use embedded pictures, DO NOT use files linked to other files. Linked files will not show up in your presentation!

POSTERS WITH PRESENTATION

- ✓ Make your poster visually interesting, but not over-elaborate
- ✓ Put your poster on the assigned poster board in the ESPU Poster Area during the entire congress.
- ✓ Stick to an easy to understand format: usually abstract methods, results and conclusions
- ✓ In addition to the poster you are allowed to give a 3-minutes oral presentation followed by 3 minutes of discussion

Short explanation on abstract sessions

Abstract sessions are interactive sessions that consist of poster and oral presentations. A poster presenter must put his poster on the assigned poster board in the ESPU Poster Area during the entire congress. During the session a poster-presenter present his or her abstract in a 3-minutes oral presentation followed by 3 minutes of interactive discussion with the audience.

Please note that moderators will be very strict with the time of presentations (3 min for poster).

Since we consider time for discussion as essential, you will be asked to conclude when your time is out. Abstracts will be presented in groups of 4-7, and then the discussion takes place with the presenters at the podium.

Equipment supplied

- ✓ Pushpins are available; please leave the pushpins on the board
- ✓ Computer with Power Point for computerized slide presentation, **no more than 6 slides are allowed!**
- ✓ Laser pointer, Cordless tie microphone
- ✓ There will be **no** ordinary slide projectors just computerized slide presentation!

Instructions for your poster

- ✓ Please prepare your poster to fit the dimensions below, it is recommended that poster be prepared on one sheet of cardboard. Alternatively presenters may display their material on several smaller sheets.
- ✓ The dimensions of the poster should not exceed 90cm wide x 120cm high
- ✓ Allocate the top of the poster for the title and authors as stated on the submitted abstract.

- ✓ The text, illustrations, etc should be bold enough to be read from a distance of two meters (six feet).
- ✓ Double sided tape and technical equipment will be available for the mounting of posters. Staff will also be available to assist you.

Please mount your poster on the board assigned to you in the ESPU Poster Area at the beginning of the congress.

Please be present in the session room 15 minutes prior to the start of the session. An abstract presenter must attend the whole session in which he/she is scheduled. A maximum set of 6 slides (PowerPoint only) may be projected.

Slides should be handed in at the Speakers' Service Centre at least 2 hours prior to the session.

DO'S

DO prepare a sign at the top of your poster indicating the abstract number, title of the presentation and its authors and institutions.

The lettering for this sign should be at least 2.5cm high.

DO use block lettering (at least 1.25cm high) for other portions of your presentation to add emphasis and readability

DO post a reproduction of your abstract in the right upper corner of the board using a large type script (using Bulletin typewriter)

DO make all illustrations beforehand. Keep illustrative material simple in using charts, graphs, drawings and pictures. Keep in mind that your illustrations must be read from a distance of about 1 - 1.5m or more.

DO use matte (silk) finish for photographs as this will help diminish problems

DO make captions brief, labels few and make both clear

DO make posters as self-explanatory as possible

DO provide descriptive hand-outs if useful to attendees

DONT'S

DO NOT mount poster on heavy board, thus avoiding hanging problems

DO NOT use projection equipment (projectors are not supplied)

DO NOT write or paint on the poster board as background for your poster

DO NOT use sticky tape to mount poster material (this will damage the poster board)

DISCUSSED POSTERS

Discussed Posters (DP) are posters presented in the poster exhibition, without a oral presentation by the author, but with time for discussion during the podium session. In this format the moderators will give a short outline of the posters and will have them discussed by the participants and the authors present at the podium during the session. There will be about 3 minutes discussion time for each poster.

Poster authors are asked to prepare:

- ✓ The posters to be presented in the exhibition area following the same instructions for regular poster preparations
- ✓ PowerPoint presentations including only 2 slides to be submitted to the meeting

VIDEO PRESENTATIONS GUIDELINES SELECTED FOR PODIUM PRESENTATION

The quality of the meeting is extremely dependent on how you present your work, and the ESPU Scientific Committee would like to remind you of a few key points:

- ✓ Do not give too long an introduction
- ✓ Do not exceed the time limits: **5 minutes for presentation, 3 min discussion**
- ✓ Hand in your presentation at least 2 hours prior to the session at the Speakers' Service Centre
- ✓ Please check the more detailed instructions enclosed

This year we will be very strict with the time of presentations (5 min for video).

Since we consider time for discussion as essential, you will be asked to conclude when your time is out. Selected videos will be presented during a podium session, and then the discussion takes place with the presenter at the podium.

Equipment supplied; Computer, Laser pointer, Cordless tie microphone

Instructions

Date, time and place are listed on the enclosed letter. Please be present in the room 15 minutes prior to the start of the session. An abstract presenting author must attend the whole session in which he/she is scheduled.

Videos should be handed in at the Speakers' Service Centre at least 2 hours prior to the session!

Guidelines on how to prepare Videos

Hand in your Video presentation on CD-ROM, DVD or compact USB-Drive (USB-Stick) 1.0/2.0 at least 2 hours prior to the start of the session at the Speakers' Service Centre a technician will incorporate your presentation on the computer network that is used for the Video presentations in the different meeting rooms. A technician in the lecture room will start your presentation.

Video files are allowed in the following formats

- ✓ AVI MPEG2 (use this format if there is sound in the video)
- ✓ WMV (Windows Media Video)

VIDEO PRESENTATIONS GUIDELINES SELECTED FOR VIDEO ROOM

Your submitted videos will be uploaded on computers in the video rooms. There they will be available for individual viewing during the whole congress.

Video files are allowed in the following formats

- ✓ AVI MPEG2 (use this format if there is sound in the video)
- ✓ WMV (Windows Media Video)

DON'T FORGET!

ALWAYS MAKE SURE YOU BRING A BACK UP OF YOUR PRESENTATION!

ALL PRESENTERS MUST REGISTER TO THE MEETING
